

Weiqi Wang

Victoria, BC, Canada | (438) 356-1893 | weiqiwang93@gmail.com | linkedin.com/in/weiqi-wang-math

Professional Summary

Mathematics educator with experience teaching at the university level and supporting learners at different stages (including high school students). Known for clear, step-by-step explanations, intuitive examples, and a supportive learning environment; experienced in mentoring students and providing individualized support through office hours and tutoring.

Teaching Approach Highlights

- **Concepts first, then technique:** begin with prerequisite review, introduce new ideas in small steps, and use worked examples before advanced problems.
- **Motivation and applications:** connect abstract material to practical questions in mathematics.
- **Inclusive support:** support students from diverse backgrounds and preparation levels.

Education

University at Buffalo (SUNY), USA

Ph.D. in Mathematics 2016.08 – 2021.08

Fudan University, China

B.A. in Mathematics 2011.09 – 2016.06

Teaching & Mentoring Experience

University of Victoria

Victoria, BC, Canada

Postdoctoral Researcher

2023 – Present

- Supervise undergraduate honours and advise graduate student research projects in applied mathematics.
- **AMC Coach (remote):** helped students increase scores by **~40 points** on AMC 10/12 tests through topic-focused practice and problem-solving strategies.
- **Math Tutor (Grades 8–12, BC):** deliver tutoring sessions based on students' needs (concept review, homework support, and exam preparation).

Concordia University

Montreal, QC, Canada

Instructor

2022 – 2023

- Taught **Linear Algebra and Applications I** (Winter 2022) and **Numerical Analysis** (Fall 2022).
- Developed course materials and assessments; held office hours and provided individualized support.

University at Buffalo (SUNY)

Buffalo, NY, USA

Teaching Assistant

2017 – 2021

- Led four 50-minute recitations weekly and supported instruction through problem sessions and grading.
- Supported courses including: Calculus I–III, Differential Equations, Linear Algebra, Probability Theory, Numerical Analysis.

Fudan University

Shanghai, China

Teaching Assistant

2016

- Assisted instruction for Calculus II.

Professional Development

Graduate Seminar in University Teaching (Concordia University, Oct 2022) | CIRTl Effective Teaching seminars and GTA conference (University at Buffalo, 2019)
